

REMARKS/ARGUMENTS

This is in response to the official action dated January 25, 2006. Reconsideration is respectfully requested.

Claim Amendment

Applicant again thanks the Examiner for his suggestions in the proposed amendment. Applicant has amended all pending claims to implement the amendment. Thus, all instances of indefiniteness have been removed.

Amendments to the Drawings:

The Examiner remarked that the drawings to show every feature of the claimed invention. Applicants believe that in view of the present amendment, which claims, *inter alia*, "a ratchet housing arranged on the running rail" which is shown in Figure 2. However, it is Applicants position that a reversal, that is a "ratchet housing arranged on the guide rail" was also originally provided, and a modification in the drawings would not provide new matter, but merely a reversal of the catch and the ratchet housing.

For the present amendment, no replacement drawing is necessary.
